

MSS025025 MONITOR AND EVALUATE NOISE COURSE INTRODUCTION

INTRODUCTION

Fulfils all the requirements for competency in
MSS025025 Monitor and Evaluate Noise

Unique Features

Fully online with tutorial support

Tutors and assessors are acoustic professionals

Field work designed to student needs

Flexible approach to study

COMPETENCY

Competency means the consistent application of knowledge and skill to the standard of performance required in the workplace.

It embodies the ability to transfer and apply skills and knowledge to new situations and environments.

STRUCTURE

- Nationally Recognised Training
- 3 Modules of online Knowledge Base (theory)
- 4 sets of mandatory skill-based fieldwork training
- Recognition of Prior Learning credit available
- Complete the Course in 60 to 70 hours

KNOWLEDGE BASE

3 Professional Study Modules

- Noise evaluation in practice
 - Basic Acoustics
 - Sound and noise measurement
-
- Each Module has individual topics
 - Each topic has a required passmark

PRACTICAL SKILLS

- 4 sets of Professional Practical Skills must be satisfied:
 - A set of observations and statistical analysis
 - A set of observations of a noise source for sound character
 - A 1-hour to 3-hour monitoring and analysis survey
 - A 24-hour monitoring and analysis survey OR
Specialised field work available – a feature unique to Acoustar

HOW THE COURSE IS STRUCTURED

- **AUSTRALIAN QUALIFICATION FRAMEWORK (AQF) LEVEL**
- Current Course: the current course is set to AQF 5 or Diploma level and pre-qualification is not required of applicants
- Future: Study to AQF 8. Specialised study for monitoring and evaluation. Acoustar is not currently (2024) providing this coursework.

YOUR PRESENTATION

To complete the training program you are required to give a 15 – 30 minute “noise” presentation to your trainer / assessor

Presentation “must haves”
